

To Whom it may concern:

It has been my pleasure to know and be associated with Imaad Zuberi for the past 20 years. In my capacity as the Assistant Sheriff of Los Angeles County, I found Imaad to be a very valuable asset to the law enforcement community and to the country. With Imaad's education, his personal background, and his extensive experience in international business, I frequently relied upon Imaad for advice and counsel regarding our outreach efforts to the varied ethnic populations throughout Los Angeles County. He has always been a willing resource and very supportive of law enforcement.

In addition to the above, Imaad Zuberi is a proud American. He is very generous with his time and financial resources. He has personally assisted me in setting up computer centers for at risk youth in several of our local communities. The Sheriff's Department has several victim assistance charity programs. Any time I contacted Imaad regarding these charities he not only willingly contributed his resources, but was able to gain financial support from his other business associates.

Fortunately, my association with Imaad over the years developed into a good friendship that has continued after my retirement from the Sheriff's Department. That friendship developed because of his character, his strong love for his family, and his strong support for this community and this nation. I am proud to call him my friend.

Respectfully,

R. Doyle Campbell
Assistant Sheriff—Retired
Los Angeles County Sheriff Department
