Sensitivity: Normal

Hi Janelle, this is great news.

Is this something we can share with our county partners?

Thanks,

Murphy

Subject: Facebook Tool for Elections

Hi Murphy and Bo,

We've heard feedback from elections authorities that they need better tools to track potential voter interference content on Facebook. In response to this feedback, we are building a dashboard that will track this content in each state – and we'd like to share those dashboards with the respective elections authorities. These Dashboards will allow for keyword searches of public content on Facebook in each state – and will be able to be customized to each state's needs. The Facebook team is hosting a training on how to use these dashboards on October 8th at 3pm EST – and you can register to attend the webinar here: <https://attendee.gotowebinar.com/register/4361910363705465858>

If you have any questions – let me know. Thanks!
