Hi Michael,
We share the concern and will connect internally about how best to proceed with an effective gathering. We've got our canvass tomorrow morning, but we'll circle back later this week.

Thanks,
Kori

Subject: request for meeting with social media government relations

Good afternoon Allie, Kori, and Angie.

We'd like to request meet with Twitter and Facebook to do a hot wash - to discuss what went well and highlight areas of improvement in their support of Elections.

We believe that a request coming from you would impress upon these vendors the greatest urgency and importance of this discussion. We'd also like to make sure that leadership at these organizations, those empowered to actually make change, attend.

IMO one of the greatest asks is that they demonstrate setting up a Command center that interfaces with our network of command centers - that it be staffed by those who can rapidly respond to our reports of immediate threats. That they continue as they performed for the 2022 Primary to me would be completely unacceptable.

If you agree with this course of action, perhaps something schedule starting the week of the 29th?

Sure, we could ask Mike Garcia to be included, and I'm sure he'd also be willing to be involved in a Comms Talk or SESM (or both).

Allie

Allie thank you very much this all sounds perfect.

Should someone from CIS be included in the conversation as well?

Hey Michael –

I am going to work on setting up a meeting with Facebook and Twitter so that we can chat with them about how the primary went, and to hear from them their plans for the General. For that meeting, we're thinking we keep it to the state and Maricopa. Then we are going to invite them to come to a Comms Talk in September so they can share with the counties their elections plans.

hear from the 2nd largest jurisdiction in the country how they could be more responsive and helpful when staff are being doxed, when threads become where the problems lie, and how it's just too much for us to monitor at times as well.

So, I will keep you all in the loop as I reach out to them and work to get these meetings scheduled.

Thanks!

Allie

We'd like to request meet with Twitter and Facebook to do a hot wash - to discuss what went well and highlight areas of improvement in their support of Elections.

We believe that a request coming from you would impress upon these vendors the greatest urgency and importance of this discussion. We'd also like to make sure that leadership at these organizations, those empowered to actually make change, attend.

This is something that both Recorder and Elections Communications teams as well as Maricopa County PIO would like to be involved in. Perhaps other counties would like to participate? I'm prepared to present part of this discussion or leave it in so many other's capable hands.

IMO one of the greatest asks is that they demonstrate setting up a Command center that interfaces with our network of command centers - that it be staffed by those who can rapidly respond to our reports of immediate threats. That they continue as they performed for the 2022 Primary to me would be completely unacceptable.

If you agree with this course of action, perhaps something schedule starting the week of the 29th?
